Allstate's Strategy To Increase Shareholder Value

Claims Practices Are Key To Value Creation, Customer Satisfaction and Retention

Contribution to Adjusted Net Income*

(\$ in billions)	Adjusted Net Income / (Loss)*		Claims Cost (% of Premiums)	
	2015 – 2019 (Average)	2022 ⁽¹⁾	2015 – 2019	2022 ⁽¹⁾
Insurance underwriting ⁽²⁾	\$1.5	\$(1.3)	69.1%	82.6%
- Auto insurance	0.8	(1.5)	70.5	86.1
- Homeowners insurance	0.6	0.4	63.8	69.9
- Other ⁽³⁾	0.1	(0.2)		
Property-Liability net investment income ⁽⁴⁾	1.0	1.3		
Protection Services	-	0.1		
Health and Benefits	0.1	0.2		
Corporate and Other ⁽⁵⁾	(0.3)	(0.2)		
Total	2.3	0.1		

Insurance underwriting generated an average of \$1.5 billion, or ~65%, of adjusted net income from 2015 – 2019, prior to the pandemic, primarily from auto and homeowners insurance

Historically 69 cents of every dollar in premiums earned are used to settle claims

Underwriting results through the first 9 months of 2022 have been challenged, primarily in auto insurance, with significantly higher claims costs as a percentage of earned premiums

⁽¹⁾ 2022 results are through year-to-date September

⁽²⁾ Excludes the amortization of purchased intangibles and reflects after-tax underwriting income assuming an effective tax rate of 21% for 2018-2022 and 35% for 2017 and prior. 2015 was not restated for pension accounting change

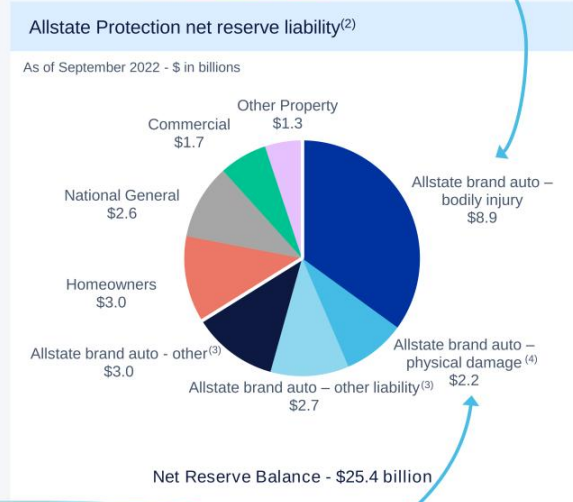

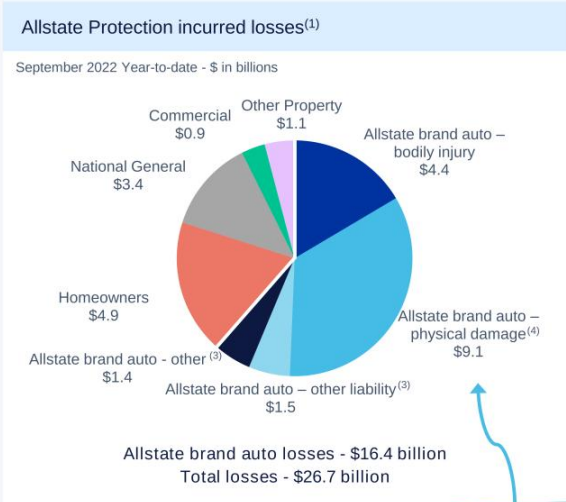

⁽³⁾ Other includes other personal lines, commercial lines, other business lines, Answer Financial and Run-Off Property-Liability

⁽⁴⁾ Assumes effective tax rate of 21% for 2018-2022 and 35% for 2017 and prior

⁽⁵⁾ Corporate and Other primarily includes adjusted net income from the corporate and other segment and non-controlling interest income (loss)

Auto Physical Damage and Bodily Injury Losses Represent Largest Components of Incurred Losses and Reserve Liabilities

Bodily injury net reserve balance is significantly larger than other coverages due to the longer settlement timeframes

Physical damage losses make up 55% of Allstate brand auto losses but a smaller proportion of net reserves since 75% of ultimate losses are paid within 3 months

⁽¹⁾ Allstate Protection incurred losses including catastrophes

⁽²⁾ Allstate Protection total reserves net of recoverables

⁽³⁾ Allstate brand auto other liability reflects under-insured and un-insured motorist coverage; Allstate brand auto other reflects primarily first part medical coverages

⁽⁴⁾ Allstate brand auto physical damage includes property damage, collision and comprehensive coverages combined

Allstate Has a Highly Effective and Efficient Claims Organization

Effective and efficient claims organization handles in excess of 6 million auto and homeowners insurance claims annually with a high degree of customer satisfaction

Advanced analytics and decision support tools enable reduced claims expense as a percentage of earned premium

Auto Physical Damage Claims Processes Designed for Effectiveness and Efficiency

- CLAIMS CAPABILITIES**
- Physical damage loss costs to repair or replace customers' autos and pay for damage to 3rd party property account for 55% of total Allstate brand auto loss costs
 - Total losses requiring car replacement account for 45% of 1st party physical damage costs. As a result, the increase in used car prices from 2019-2022 significantly reduced underwriting profit
 - Losses handled by 3rd party's primary insurer can require Allstate to pay a share of losses (subrogation)
 - Over 85% of 1st party and 50% of 3rd party ultimate losses are paid within 3 months after first notice of loss
 - Advanced technology and analytics enhance outcomes
 - Innovations such as QuickFoto Claim[®] and Virtual Assist[®] enable claims to be resolved quickly, accurately with lower expenses
 - Predictive modeling at first notice assists in optimizing repair / replace decisions
 - Strategic partnerships and process design also help control costs
 - Good Hands[®] Repair Network of over 4,300 shops helps reduce repair costs and increase customer satisfaction
 - Allstate's scale also enables strategic partnerships with repair facilities, parts suppliers and rental car companies

Auto Bodily Injury Claims Are Complicated, Requiring Multiple Years to Resolve

- CLAIMS CAPABILITIES**
- Third party bodily injury claims account for 27% of Allstate brand auto loss costs
 - Medical treatments and liability assessments develop over multiple years requiring ~4 years for 80% of ultimate liability to be paid
 - Severity of auto accidents increased beginning in 2020 and has persisted through 2022, raising medical costs and resulting in more complicated or litigated settlements
 - Process designed to expeditiously settle claims at appropriate amounts
 - Predictive modeling at first notice of loss enhances ability to detect injury exposure to facilitate early engagement, particularly on 3rd party claims
 - Proactive outreach to claimants helps manage total costs incurred and reduce need for litigation
 - Accident investigation collects information to support settlement or litigation
 - Analytical models ensure claims get proper oversight and support decisions to settle or defend litigation
 - In-house experts
 - Staff medical doctors provide a clinical review of complex medical records
 - Fraud indicators are flagged and prioritized for further investigation
 - Expert staff legal organization combined with technical and medical intelligence provide a vigorous defense of litigated matters

Accurate and Efficient Home Insurance Claims Practices Leverage Technology, Analytics and Scale

Loss Reserving Is Iterative With Strong Governance and Oversight

Claim Reserve Liability Changes Have Usually Positively Impacted Reported Income

Historical reserve position has been redundant with average prior year reserve releases of ~\$190 million over the ten year period 2012 – 2021, excluding catastrophes

Prior year reserve reestimates are generally a small percentage of net reserve liability and impact on the combined ratio; 2022 impact is greater at 5.2% and 4.1 point impact, respectively

Property-Liability prior year reserve reestimates, excluding catastrophe losses and Run-off Property-Liability

(\$ in millions)

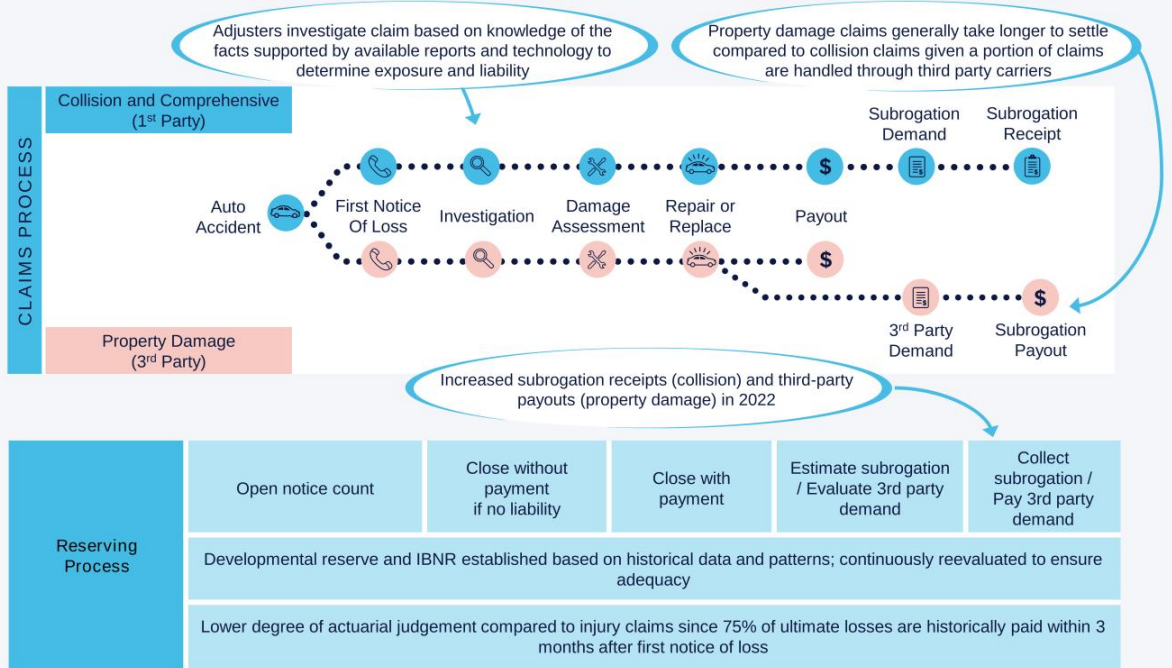

Impact of Property-Liability prior year reserve reestimates, excluding catastrophe losses and Run-off Property-Liability

⁽¹⁾ Reflects % impact of prior year reserve reestimates, excluding catastrophes, divided by Allstate Protection net reserve liability

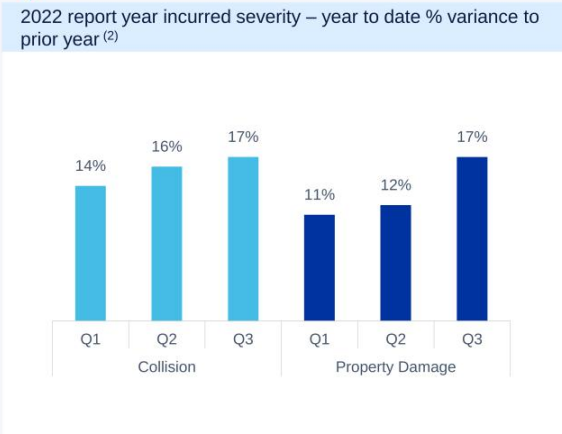

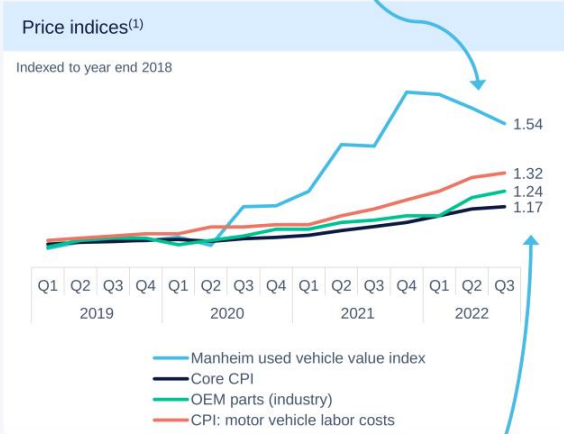

Physical Damage Claims Liability Prior Year Increases in 2022 Largely Reflecting Increased Subrogation Demands

Physical Damage Loss Costs Impacted by Rising Inflation

Used car values below recent peak level is a positive development, though costs remain above earned pricing

2022 report year incurred severity⁽²⁾ for collision and property damage are 17% higher than full report year 2021

Higher replacement parts prices and labor rates continue to increase physical damage claim severities

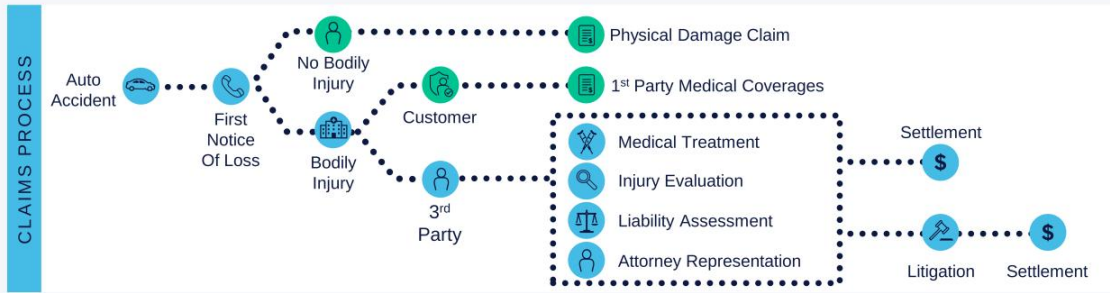

⁽¹⁾ Source: Manheim Used Vehicle Value Index; U.S. Bureau of Labor Statistics seasonally adjusted; CCC original equipment manufacturer industry average price per part
⁽²⁾ Allstate brand report year severity excluding Esurance and Canada

Physical Damage Adverse Prior Year Reserve Development in First Half of 2022

Bodily Injury Claims Estimates Use Multiple Actuarial Methodologies

Reserving Process	Open notice count	Close without payment if no liability	Close with payment
	Adjuster establishes case reserve	Adjuster continuously reviews case reserve throughout process, including reflecting payments	
	Developmental reserve and IBNR established based on historical data and patterns; continuously reevaluated to ensure adequacy		
	Multiple actuarial methodologies are used since only about 15% of ultimate losses are paid during the year in which they are reported		

Bodily Injury Prior Year Reserves Strengthened in Response to Accelerating Loss Trends

Claims are evaluated based on available data and information that incorporates medical treatment, non-medical damages and attorney costs

Allstate brand auto bodily injury⁽¹⁾ prior year reserve reestimates by report year

September 2022 Year-to-date - \$ in millions

Prior year reserve reestimates - \$675 million

Reserving actions in 2022 were responsive to adverse development trends across multiple prior report years

Allstate brand bodily injury⁽¹⁾ reserve evaluation

Methodologies	Evaluation Elements
Paid Loss Development	Actual Paid and Case Reserve Trends
Incurred Loss Development	% Pending Composition and Settlement Rate
Paid Loss Bornhuetter-Ferguson	Claims Segmentation - Injury Type, Accident Type, Attorney Involvement
Incurred Loss Bornhuetter-Ferguson	State and Sub-State Analysis
Berquist-Sherman Techniques	External Indices

External experts, including our Appointed Actuary and Independent Auditors, generally consider similar methods but may aggregate data differently (eg, accident year vs report year) to develop alternative perspectives

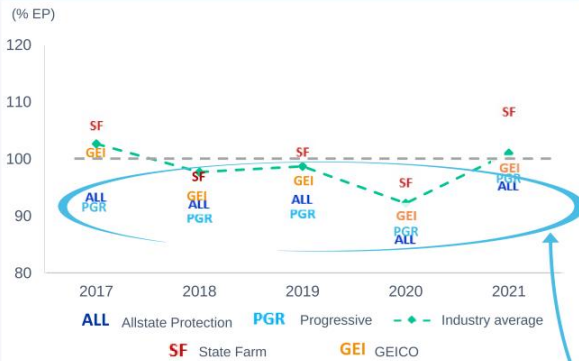

⁽¹⁾ Reflects Allstate brand auto excluding Esurance and Canada

Strong Historical Returns in Auto and Homeowners Insurance

Auto insurance combined ratio ~6.5 points better than industry average from 2017 - 2021

Homeowners insurance combined ratio ~12.0 points better than industry average from 2017 - 2021

Auto insurance combined ratios⁽¹⁾

Homeowners insurance combined ratios⁽¹⁾

Superior underwriting performance

Achieving our target combined ratios will generate adjusted net income return on equity* in our long-term target range of 14 – 17%

Forward-looking Statements

This presentation contains "forward-looking statements" that anticipate results based on our estimates, assumptions and plans that are subject to uncertainty. These statements are made subject to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995.

Forward-looking statements do not relate strictly to historical or current facts and may be identified by their use of words like "plans," "seeks," "expects," "will," "should," "anticipates," "estimates," "intends," "believes," "likely," "targets" and other words with similar meanings. These statements may address, among other things, our strategy for growth, catastrophe, exposure management, product development, investment results, regulatory approvals, market position, expenses, financial results, litigation, and reserves. We believe that these statements are based on reasonable estimates, assumptions and plans. Forward-looking statements speak only as of the date on which they are made, and we assume no obligation to update any forward-looking statements as a result of new information or future events or developments. In addition, forward-looking statements are subject to certain risks or uncertainties that could cause actual results to differ materially from those communicated in these forward-looking statements. Factors that could cause actual results to differ materially from those expressed in, or implied by, the forward-looking statements include risks related to:

Insurance and Financial Services (1) unexpected increases in claim frequency and severity; (2) catastrophes and severe weather events; (3) limitations in analytical models used for loss cost estimates; (4) price competition and changes in regulation and underwriting standards; (5) actual claims costs exceeding current reserves; (6) market risk and declines in credit quality of our investment portfolio; (7) our subjective determination of fair value and amount of credit losses for investments; (8) our participation in indemnification programs, including state industry pools and facilities; (9) inability to mitigate the impact associated with changes in capital requirements;

(10) a downgrade in financial strength ratings;

Business, Strategy and Operations (11) competition in the industries in which we compete and new or changing technologies; (12) implementation of our transformative growth strategy; (13) our catastrophe management strategy; (14) restrictions on our subsidiaries' ability to pay dividends; (15) restrictions under terms of certain of our securities on our ability to pay dividends or repurchase our stock; (16) the availability of reinsurance at current levels and prices; (17) counterparty risk related to reinsurance; (18) acquisitions and divestitures of businesses; (19) intellectual property infringement, misappropriation and third-party claims;

Macro, Regulatory and Risk Environment (20) conditions in the global economy and capital markets, including the economic impacts from the recent military conflict between Russia and Ukraine; (21) a large-scale pandemic, the occurrence of terrorism, military actions, or social unrest; (22) the failure in cyber or other information security controls, as well as the occurrence of events unanticipated in our disaster recovery processes and business continuity planning; (23) changing climate and weather conditions; (24) restrictive regulations and regulatory reforms, including limitations on rate increases and requirements to underwrite business and participate in loss sharing arrangements; (25) losses from legal and regulatory actions; (26) changes in or the application of accounting standards; (27) loss of key vendor relationships or failure of a vendor to protect our data, confidential and proprietary information, or personal information of our customers, claimants or employees; (28) our ability to attract, develop and retain talent; and (29) misconduct or fraudulent acts by employees, agents and third parties.

Additional information concerning these and other factors may be found in our filings with the Securities and Exchange Commission, including the "Risk Factors" section in our most recent annual report on Form 10-K.
